

REACH (Reata Education, Access & Care Helpline) can support eligible patients throughout the duration of their treatment with SKYCLARYS™ (omaveloxolone) 50 mg

Click the QR code or visit ReataREACH.com to take your REACH resources with you on the go!

4 Steps to Get Started

1 Physician's Office Submits Prescription and Start Form to REACH*

Once a provider has decided to prescribe SKYCLARYS, they will send the Start Form (prescription included) to REACH. Upon receipt, a Care Navigator will contact the patient to introduce the REACH program services and obtain their consent for participation. The Care Navigator will be the single point of contact for the patient during the prescription approval process.

*Patients do not need to enroll in all patient support services to access prescribed medication.

At This Step: The welcome call is the first REACH-patient point of contact

2 Benefits Investigation and Verification

REACH will contact the patient's insurance company to research their coverage benefits for SKYCLARYS and identify specific information and documentation that the insurance company needs to review the prescription request for approval. REACH will share the results with the patient and provider.

At This Step: REACH will identify insurance requirements for SKYCLARYS access

3 Prescription Review Process

The physician's office submits all the necessary documentation to the insurance company. REACH will follow up regularly with payers throughout the insurance approval process. Once the patient's insurance approves SKYCLARYS, REACH will contact the patient to inquire if help is needed in exploring financial assistance options for accessing SKYCLARYS.

At This Step: REACH follows the insurance approval process and can support eligible patients with financial assistance for SKYCLARYS

4 Receiving Product

A pharmacy representative will contact the patient to discuss treatment dosing and confirm shipping address.

At This Step: SKYCLARYS will be shipped directly to the patient using the address provided

Ongoing Support From REACH Specialty Pharmacy†

Customized Ongoing Support

High-engagement support will be offered based on the individual needs of each patient.

Product Support

Registered pharmacists and nurse educators are there to help support patients throughout their SKYCLARYS treatment journey.

†REACH clinician-patient support is not intended to replace care from a healthcare provider.
